INTRODUCTION

EXPANSIVE INDUSTRIAL SOUNDSCAPES FROM A MULTIDISCIPLINARY SOUND ARTIST

A timely collaboration with innovative producer and composer GAIKA, War Island offers multidimensional, evolving sounds from the beating heart of London's industrial underground. Featuring harsh bassy synth drones, tape-processed drums, pads, leads and warped vocal effects, these expansive sounds are abundantly complex by virtue of GAIKA's unique and sophisticated processing techniques — made accessible, intuitive and interactive through Spitfire Audio's dynamic, award-winning plug-in.

Inspired by the sounds of GAIKA's youth and developed over a number of years, these visceral, abstract environments are inundated with the distinctive buzz of an ever-changing and perceptibly dystopian London, offering a fresh creative lense not only for experimental producers, but composers looking for cutting edge sounds to enhance their scores.

This venture is part of a larger scale anthology of work by GAIKA also called **War Island** — encompassing a record, sample library, an installation, film, writing, and technology — which speaks to the universal experience of modern existence absorbed by and inspired by urban sprawl, in a sharp assessment of the state of post-pandemic Britain and its place in a changed world.

QUICK SPECS

MAC SYSTEM REQUIREMENTS

Mac OS X 10.13 to OS 11
Minimum: 2.8GHz i5 minimum (quad-core), 8GB RAM. Recommended: 2.8GHz I7 (six-core), 16GB RAM.

Intel and Apple Silicon/ARM are supported.

32-bit is not supported.

PC SYSTEM REQUIREMENTS

Windows 7, Windows 8, or Windows 10 (latest Service Pack, 32/64-bit) Intel Core i7 6th gen and later or AMD Ryzen 7

32-bit is not supported.

2.01 GB install Size

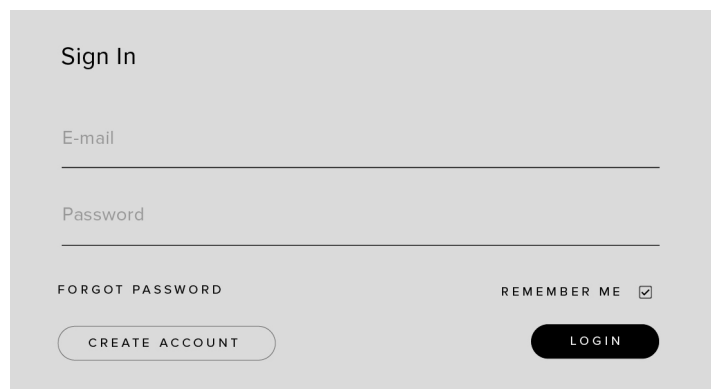

DOWNLOADING & INSTALLING

Thank you for buying GAIKA - War Island. If you are new to Spitfire Audio you can get up to speed here: <https://www.spitfireaudio.com/about/>

First though, grab the 'Spitfire Audio App' from this link, this app will enable you to download the library: <http://www.spitfireaudio.com/info/library-manager/>

THE SPITFIRE AUDIO APP

When you launch the app you will be prompted to login using the same details you use at our site. Then you'll see the page pictured below:

The image shows the login screen of the Spitfire Audio App. It has a light gray background. At the top left, it says "Sign In". Below that are two input fields: "E-mail" and "Password". To the right of the password field is a "REMEMBER ME" checkbox. At the bottom left is a "FORGOT PASSWORD" link. At the bottom center are two buttons: "CREATE ACCOUNT" (light gray) and "LOGIN" (dark gray).

1. TABS the default tab is My Products, which shows all of the libraries on your Spitfire Account. Downloads will show currently downloading products.

2. FILTERS Clicking these filters will quickly display products are not installed, those already installed, and any available updates. Clicking again will remove the filter.

3. LIBRARY All libraries and plugins will appear with their artwork on the My Products tab. Clicking this artwork will open the product page.

4. INSTALL/UPDATE buttons allow you to quickly start a download directly from the My Products tab, instead of clicking through to the Library. Next to the button the size of the download is shown.

The image shows the "My Products" screen in the Spitfire Audio App. At the top, there are three tabs: "My Products", "Downloads", and "Settings". Below the tabs are four filter buttons: "NOT INSTALLED", "INSTALLED", "UPDATES", and "ERRORS". To the right of the filters is a search bar and a "Sort by" dropdown menu. The main area is titled "My Products" and contains four product cards. Each card has a placeholder image, a size of "56.2 GB", and an "INSTALL" or "UPDATE" button. Red boxes and numbers 1 through 4 highlight specific elements: 1 points to the tabs, 2 points to the filter buttons, 3 points to a product card, and 4 points to an "INSTALL" button.

THE SPITFIRE APP PREFERENCES

If this is your first time using the Spitfire Audio App for a download you may wish to first navigate to the Settings tab. Here you can set the Default Content location for where you wish to download your libraries. You can also you can set the default VST2 install location to the folder where your DAW expects to find VST files.

Here you can also enable Auto Login to save time in future.

Once you are happy with your preferences, simply click the Install button for the library. This is either directly on My Products tab under the library artwork, or it can be found by clicking on the library image and clicking the install button on the page that appears.

Clicking either of these will prompt you for a location, the default content location in your preferences will be suggested but you can select any suitable location. If installing from a hard drive, ensure that you choose the drive as the location.

After clicking install you will be directed to the Downloads tab where you can watch the progress if you like. You can of course leave the Downloads tab and start other downloads but at this point you should leave the Spitfire App open until the download completes.

THE DEDICATED PLUGIN

Unlike other Spitfire libraries you don't need Kontakt Player or the full Kontakt to run this library. GAIKA - War Island is contained within its own plugin, built for VST, AU and AAX. Once you have completed the installation, you are ready to go!

LOGIC PRO X

- On a fresh project, a track dialogue box will automatically pop up
- Choose 'Software Instrument', and then look beneath the 'Instrument' dropdown
- Select AU Instruments > Spitfire Audio > GAIKA - War Island

CUBASE

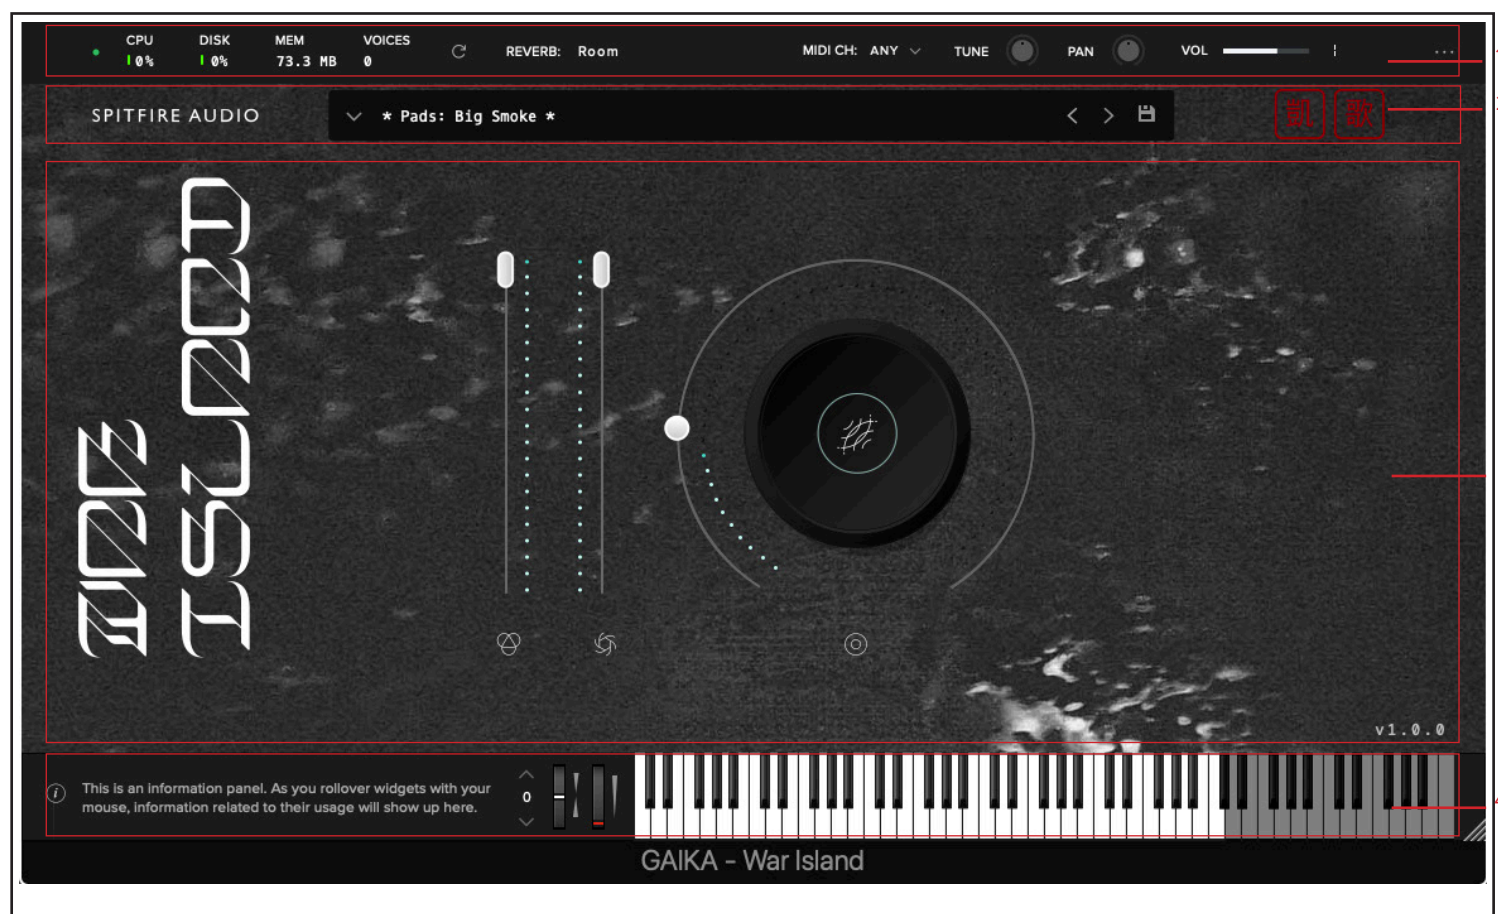

- Right-click the track window and choose 'Add Instrument Track'
- Underneath the 'Instrument' dropdown, choose GAIKA - War Island
- Select 'Add Track'

PRO TOOLS

- Go to the 'Track' menu at the top of the screen, and select 'New'
- In the pop-up, select Stereo and Instrument Track, and press 'Create'
- In the first Insert slot, select multichannel plug-in and 'Instrument'
- You should see GAIKA - War Island available as an option

HAVE A LOOK AROUND

GAIKA - WAR ISLAND INTERFACE

OPENING YOUR FIRST PRESETS

When you first open this library, this is what you will see. It opens with a blank preset, so you can load any preset you choose first.

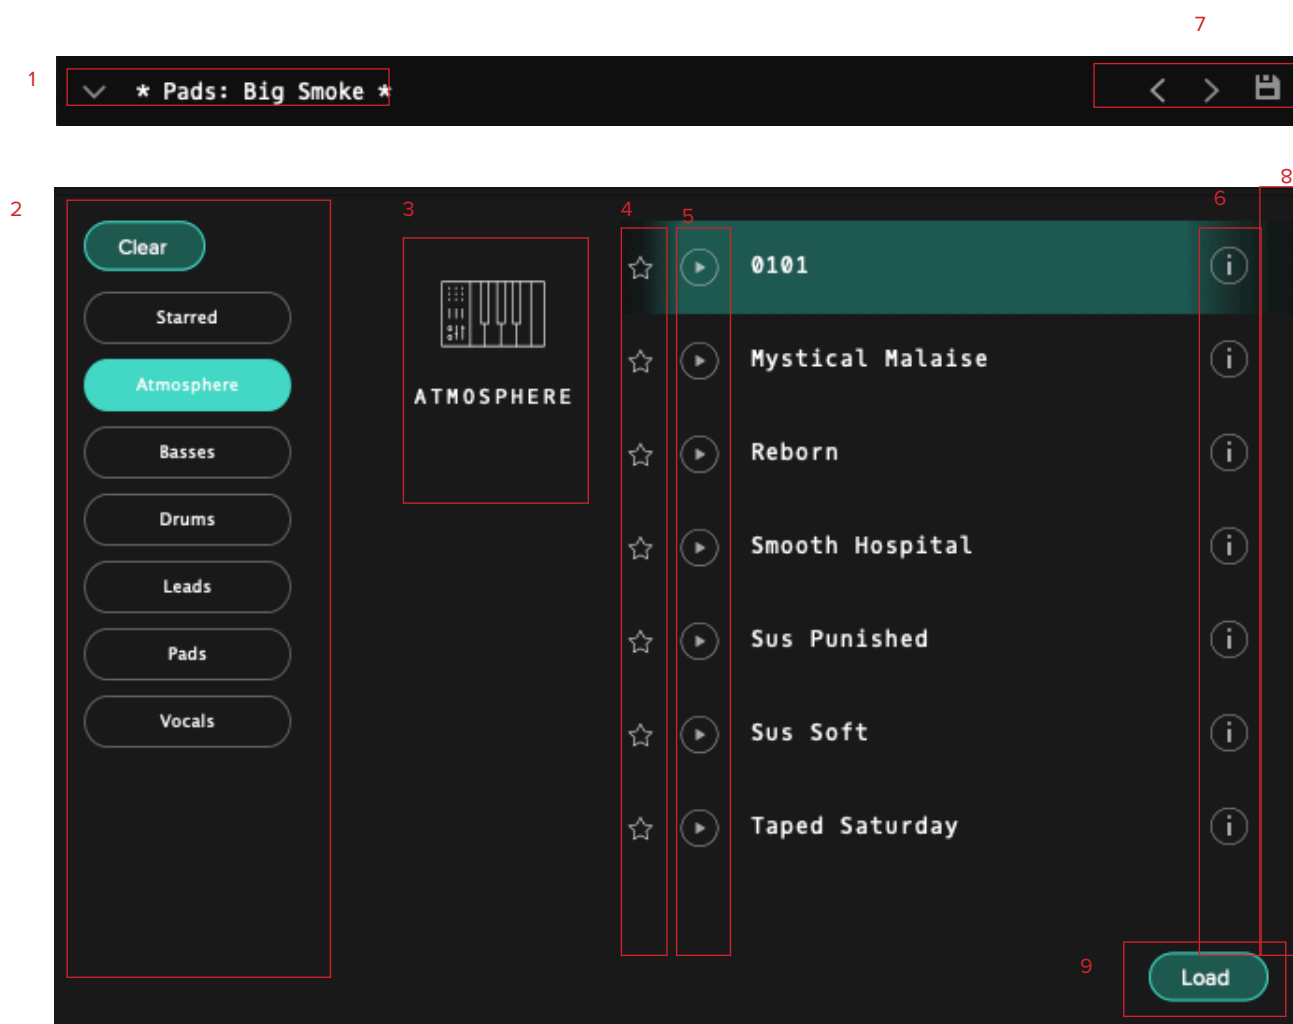

1. TOP MENU

2. PRESET SELECTOR

3. MAIN CONTROLS

4. KEYBOARD PANEL

PRESET SELECTOR

1. PRESET NAME

Here you can see the currently selected preset.

2. FILTERS

Click on a filter to only show those presets. The filters are subtractive, so selecting "Atmosphere" will show you only the Atmosphere presets.

Click the "Clear" button to return to a view of all presets.

3. INSTRUMENT GROUP

As you scroll through the available presets, the instrument group is displayed here.

4. STAR

Click here to favourite your presets. Once "Starred" they show in the "Star" filter.

5. PREVIEW

Play back a short example of the preset without having to load it! Enormously helpful when choosing a sound.

6. PRESET LIST

Scroll through the list of presets here. Double-click to load a preset or click the 'Load' button.

6. INFORMATION

Hover over on the “i” icon to see some information about the preset.

7. NEXT, PREVIOUS AND SAVE

With the presets view collapsed you will be able to see the Next, Previous and Save icons.

Next and Previous will simply send you to the next available preset - if you have a filter enabled, you will scroll through the filtered set of presets.

Save allows you to save your own preset, click save, name the preset and it will appear under the “user” filter.

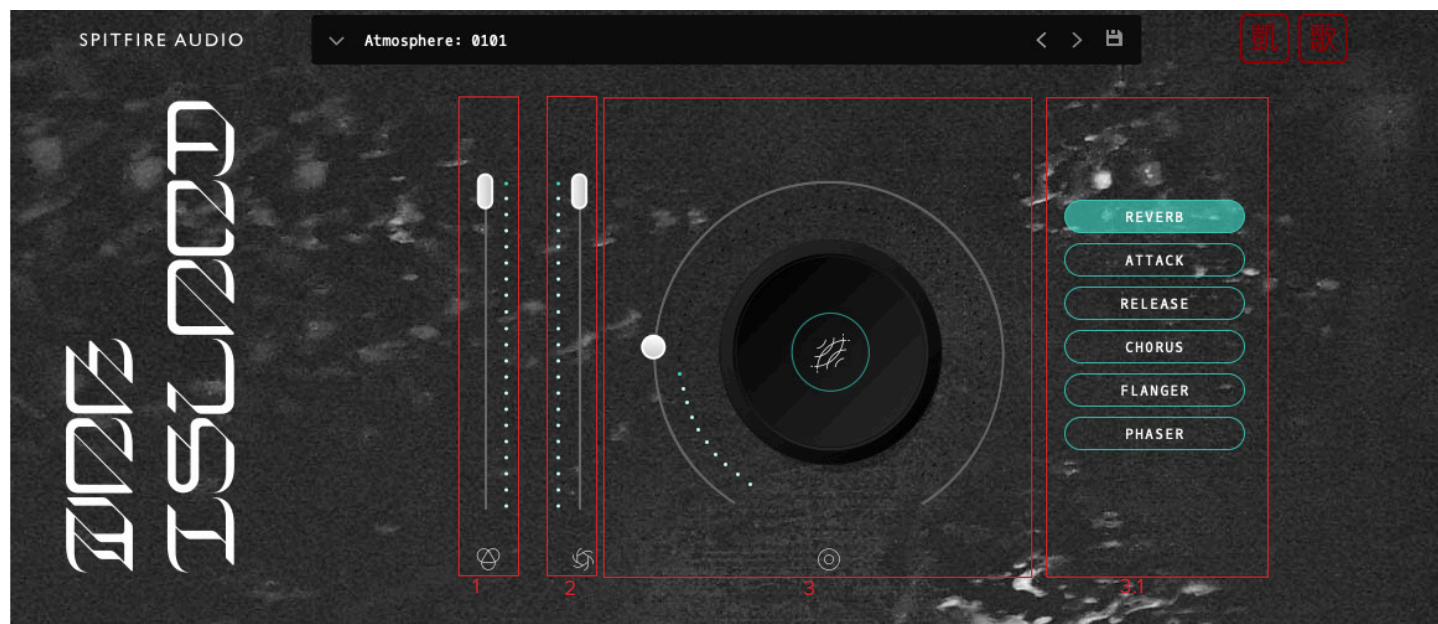

8. SCROLL

Drag up and down to see more presets.

9. LOAD

Select a preset and then press “load” (or double-click the preset).

MAIN CONTROLS

1. EXPRESSION

This is a control for you to adjust the level of the technique.

2. DYNAMICS

This slider will fade from a processed signal to a close signal.

3. KNOB

The configurable knob allows you to control any of the other available parameters for the particular preset.

Hover over the knob and it will turn black.

3.1 CLICK: Click and you will be able to see all available controls for a particular preset. GAIKA - War Island features 6 additional controls on the Knob Control depending on the patch.

REVERB - Controls the amount of reverb being added. You can select alternative reverb types in the reverb selection box. (CC#19). More information on [Page 11](#).

ATTACK - Allows you to change the length of the attack of a note. (CC#94)

RELEASE - Allows you to change the length of the release of a note. (CC#17)

CHORUS - Controls the amount of chorus being added. (CC#95)

FLANGER - Controls the amount of flanger being added. (CC#96)

PHASER - Controls the amount of phaser being added. (CC#97)

TOP MENU

1. LED

Shows when an instrument is loaded by lighting solid green. If this is flashing, your instrument is not fully loaded yet.

2. CPU METER

An indication of how much your CPU is being used, the green flash next to the CPU meter will turn red when you are overloading it.

3. DISK METER

How much of the sample drive bandwidth is being used. If this is close to, or going over 100% it's time to consider a faster drive. See next page for settings that can help get the most out of a slower drive.

4. MEMORY

This shows how much RAM you are currently using in this instance of the plugin. While the preset is loading, this will show the instrument loading into memory.

5. VOICES

Shows how many voices are being used at any one time.

6. REFRESH

Refresh the instrument, alt-click to refresh the whole plug-in. This can be useful if you have hanging MIDI notes or have moved samples in your file system. Right click this for additional options, such as switching all instances to a different mode.

7. REVERB TYPE

Select which type of Reverb you would like to be active, choose from 7 different impulse responses.

8. MIDI CH

Set the MIDI channel that will control the instrument here. If in doubt select "any" so that the instrument will react to any incoming MIDI messages.

9. TUNE

Move this knob to tune in semitone increments, shift-click to move in increments of 0.01 of a semitone. Alt-click to reset to default.

10. PAN

Pan the signal left and right. Cmd/Ctrl-click to reset.

11. VOLUME

Control the overall volume of the instrument.

12. PLUGIN SETTINGS

J. MAXIMUM VOICES — Enter the maximum number of voices that can play at once. More voices = More CPU and memory used.

K. PRELOAD SIZE — The minimum number of sample values preloaded into memory for each audio recording. Increase for slower hard drives. Default is 12888.

L. STREAM BUFFER SIZE — The number of sample values kept in memory for each audio recording stream at any time. Increase for slower hard drives. Default is 65536.

M. MASTER TUNING— Choose a preset that you wish the plug in to load by default on launch

MAXIMUM VOICES	512	J
PRELOAD SIZE	12288	K
STREAM BUFFER SIZE	65536	L
MASTER TUNING	440	M

APPENDIX A — FAQS AND TROUBLESHOOTING

Q: WHAT ARE THE SYSTEM REQUIREMENTS?

MAC SYSTEM REQUIREMENTS

Mac OS X 10.13 to OS 11

Minimum: 2.8GHz i5 minimum (quad-core), 8GB RAM.

Recommended: 2.8GHz i7 (six-core), 16GB RAM. Intel and Apple Silicon/ARM are supported.

32-bit is not supported.

PC SYSTEM REQUIREMENTS

Windows 7, Windows 8, or Windows 10 (latest Service Pack, 32/64-bit) Intel Core i7 6th gen and later or AMD Ryzen 7

Q: I WANT TO RESET THE PLUGIN SETTINGS TO THE DEFAULT

You can delete the .settings file to reset the settings to default. This is located at:

Users/username/Music/Spitfire Audio - on a Mac

C:\Users\username\AppData\Roaming\
Spitfire Audio - on a PC.

Q: MY LIST OF PRESETS IS EMPTY, HOW DO I SOLVE THIS?

If you have moved the GAIKA - War Island Library folder, you can solve this problem by using the “Locate Library” feature in the Spitfire Audio App.

If this does not solve the problem, the library likely needs reauthorising, to do this, use the “repair” feature in the Spitfire Audio App.

Q: I SEE A RED EXCLAMATION MARK IN THE TOP LEFT, WHAT DOES THIS MEAN?

This means that there is an error, you can click the exclamation mark to open a log with further details. It is likely that using the “Repair” and “Locate Library” features in the Spitfire Audio App will solve the problem but if not, contact our support team at spitfireaudio.com/support and attach the log.

Q: CAN I INSTALL ON MORE THAN ONE COMPUTER?

With our products you have two licenses. This means that you are allowed to download and install on two computers you own, say your main rig and your mobile rig. If you have purchased the library on a hard drive, you should copy the contents of the drive on to the destination machine before completing the download with the Spitfire App. If you downloaded GAIKA - War Island, you can copy the library folder over to the second machine and then use the “Repair” and “Locate Library” features in the Spitfire Audio App.

Q: I CAN'T SEE THIS IN THE KONTAKT LIBRARIES PANE AND WHEN I TRY AND LOAD IT INTO KONTAKT IT SAYS NO LIBRARY FOUND

This library does not run in Kontakt, it is a standalone plug-in that you can run in your chosen DAW.

Q: HOW DO I AUTHORIZE GAIKA - WAR ISLAND ON A MACHINE NOT CONNECTED TO THE INTERNET?

It not possible to authorise this library on a machine not connected to the internet. Authorisation is done with the Spitfire Audio App and an internet connection is required.

Q: HOW CAN I REDOWNLOAD A PRODUCT?

This can easily be done via your Spitfire Audio App. To reset both your entire library download or the latest update;

- Open up the Spitfire Audio App and log in with your account email and password.
- Select the product artwork you wish to re-download
- On this page is a “cog wheel”. Select this, choose “reset” from the menu. Then “Reset Entire Download” (for a full download) or (Latest Update) for the latest update.

This will reset your latest update ready for install again. You can repeat this process for any of the libraries you own.

Note that there is a limit to how many times you can reset your downloads in a certain time frame. If you do exceed your reset limit please get in touch.

Q: DIFFICULTIES IN DOWNLOADING / INSTALLING

Customers may find that they have some difficulties in the downloading process. If you find that you are having some trouble, please check the list below for possible causes:

- The formatting of your drive, if it is FAT32 this will cause errors, because there is a maximum file size with this format of 4GB and our download files will exceed this limit. To solve this problem, reformat your drive or use a different drive. We recommend NTFS on PC and Mac OS Extended on Mac. Other possible issues:

- Spitfire App freezes in the “Extracting” stage for hours. This may be because our libraries are often very large files, and this is the stage where the compressed files are extracted and placed in their final locations on the hard drive. There could be hundreds of GB of content to unpack, so it really can take hours. If you’re unsure whether it has crashed or is simply extracting files, visit

the installation folder you chose when you started the install. If everything is working normally you’ll see various files appearing in the folder (or one of its sub-folders).

- If your download gets stuck and is continually cycling and not resuming, please get in touch with us, giving us as much detail as possible about your set up. It would be helpful if you can tell us your operating system, where you are downloading from (your country, and also whether you’re at home or work), your ISP, and whether there are any proxy servers or firewalls between your computer and the internet.

Q: I HAVE FAST INTERNET, WHY IS MY DOWNLOAD SLOW?

We have no direct influence on your actual download speeds, our libraries are hosted on Amazon S3 servers which are normally very quick but it may well be that at certain times of the day when traffic is particularly busy, your ISP may throttle your connection speeds.

We would advise you to leave your download running overnight as speeds should ramp up at less busy times. Our Spitfire App downloader aims to use as much of the available bandwidth as possible to give you the quickest possible speeds, and may take several minutes to reach its peak.

Q: CAN I TRY BEFORE I BUY?

No - it is not currently possible to demo our products.

If you go to our Youtube channel you’ll see many, many walkthroughs containing detailed info about all our products -- you can hear them being played in real time with no smoke and mirrors!

Q: MY LIBRARIES ARE NOT SHOWING UP IN MY SPITFIRE APP

A handful of customers may find that when they log into their Spitfire App, some of their previously purchased products do not show up in the 'Installed' section or in the 'Download Ready' section either. It may be that you have purchased these under another email address. Checking other possible email addresses for your previous purchases may help to find these missing products. If this is not the case, and these missing products were purchased a few years ago, please create a support ticket telling us your account email address, and any serial numbers you may have to go with these missing products. Our support team can also merge one or more accounts together if you'd like to consolidate all your purchases in one place.

The more information we have, the quicker we can get you back up and running!

Q: HOW DO I UPDATE MY PRODUCTS?

The main premise of downloading our products is that our Spitfire App downloads into the folder you choose, so it is important to choose the folder above where you want the download to go. The best file path for our products is something very simple, a long file path will cause errors as there is a character limit on how far the Spitfire App can read. We advise a file path of something along the lines of: Samples Drive > Spitfire Audio

When it comes to downloading / updating - if you have a folder called 'Spitfire Audio' always point the Spitfire App to the folder Spitfire Audio - never go into this folder and choose the actual library in question.

Q: HOW DO I REDOWNLOAD THE LATEST UPDATE?

With the continuous improvements to our Spitfire Audio App, we have incorporated the ability to reset your own downloads.

This can easily be done via your Spitfire Audio App.

Open up the Spitfire Audio App and log in with your account email and password.

- Select the product artwork you wish to re-download
- On this page is a "cog wheel". Select this, choose "reset" from the menu. Then "Reset Entire Download" (for a full download) or (Latest Update) for the latest update.
- This will reset your latest update ready for install again.

You can repeat this process for any other updates you wish.

If you do not see the option to reset your download in your Spitfire Audio App, we would advise to download the latest version of the Spitfire App from spitfireaudio.com/info/library-manager/.

Q: I'VE BEEN WAITING AGES FOR MY DOWNLOAD LINKS?

We run all our orders through a fraud checking process. The automatic fraud check takes 20 minutes (but can take up to an hour during a very busy period, eg. Black Friday) If your order gets caught at this stage, we run a manual order check, and this can delay the processing of your order for up to 24 hours (though this would be a rare and exceptional case).

You should however receive an order confirmation email IMMEDIATELY upon placing your order. This confirms that your order has successfully been logged in our system and that your payment was successfully taken. Please check your junk folders before contacting our support.

Q: CAN I DOWNLOAD ON A PC, THEN TRANSFER TO A MAC OR VICE VERSA?

Yes, you can copy the library folder and plugin files over to the second machine and then use the “Repair” and “Locate Library” features in the Spitfire Audio App. Please note that although the majority of the download can be done on a separate machine, you will always need an internet connection to finish the authorisation process.

Q: HOW DO I DOWNLOAD PRODUCTS ON MAC OSX 10.9?

The version of the Spitfire App needed to install GAIKA - War Island only supports Mac OSX 10.10 to OS 11.

Q: I HAVE FOUND A BUG

In some cases we can't squash them all and bugs shamefully make their way through. If you think you have found a bug, please contact us with all the relevant information;

- A description of the bug you have found
- A screencast (video) of the bug happening, or an audio example
- The exact preset name (or presets) in question and also the library giving us as much detail as possible will help us get to the bottom of the issue.

Q: WHAT IS YOUR REFUNDS / RETURNS POLICY?

If you have NOT completed the download / installation process, and bought within 14 days then we CAN refund / return your product, please contact support with your account email address and order number so we can handle this quickly. If you HAVE completed the installation process (even if you've not yet registered your serial number), please see our EULA in regards to why we do not accept refunds and returns. We can refund hard drive orders up until the point when the drive is dispatched from our office. This is usually 1-2 days after you order.

Q: I'VE FORGOTTEN MY PASSWORD?

If you have forgotten your password, please see this link spitfireaudio.com/my-account/login/, and click 'Forgotten Password'. If at some point in the past you asked us to merge two or more accounts but have since forgotten, you MAY find that the forgotten password isn't working for the email address you asked us to merge FROM. In this case, please contact support with your name, and any email addresses you think we might know about, and we'll work out what has happened.

APPENDIX B — DEFAULT CC MAPPINGS

Dynamics	1
Global Gain	7
Global Pan	10
Expression	11
Release	17
Reverb	19
Attack	94
Chorus	95
Flanger	96
Phaser	97
